

24/01/17

## LLR – Lala Lajpat Rai Hostel

### Mess –

- **The whole floor and wall of the mess is horribly dirty**
- Utensil keeping area needs renovation
- There is not 24 hours running water supply for cleaning utensils. They are being washed in static water which is again very unhygienic.
- Vegetable and salad cutting area is dirty and this floor also needs renovation
- Drainage system and floor leveling is very bad
- Aquaguard taps are very dirty
- Dosa maker tawa is rusted and needs to be replaced immediately
- **Bain Marie** in the mess is needed
- **Chimney** in the kitchen is needed
- **Steel rack** is needed to keep the washed utensils
- Fly catchers are needed inside the dining hall
- Buying a salad cutting machine can be taken into consideration

### Civil Work –

- **The whole hall is in a very precarious condition and needs complete renovation and face lifting**
- All drains needed to be covered otherwise they are very smelly and attracting flies and mosquitoes
- Entrance needs complete renovation
- The entrance floor is very uneven and it creates water logging
- Cow catcher is not needed and it should be removed
- The gap between the metal rods covering the top of the drain is so wide that it is causing the cycles trapped between the hole
- Cycle stand door needs to be widened
- The canteen near the reception area needs to be removed outside so that it can be turned into a proper reception area
- The open space behind the hall needs to be leveled and cemented, so that water logging can be prevented. The whole area is so mismanaged that it is being used as a dumping ground
- Beer bottles are lying in this area
- Window seals are being used as dumping spaces At many places roof plasters are falling apart
- All the bathroom walls and floors are soaking and water logging
- Store room wall has a huge horizontal crack which can be fall down any day
- The room beside the warden's office is in very bad shape. The roof of this room is almost in the process of falling down and beams have been put there to support the roof. It is in very very **bad condition and needs urgent renovation**

- This hall will celebrate their 50<sup>th</sup> year of establishment in March, 2017. So the maintenance and renovation work should be completed before that.

### **M.S. Hall – Meghnad Saha**

**This hall and the surrounding area is very clean**

#### **Mess –**

- Drains inside the mess needs to be cleaned and covered
- All the drains flowing outside carrying the dirty water of the kitchen needs to be covered
- Utensils are being cleaned in static water
- Dal crusher is very dirty and needs to be cleaned periodically
- Dosa tawa is in very bad shape and needs to be replaced
- Fly catchers are needed inside the dining hall
- **Bain Marie** in the mess is needed
- **Chimney** in the kitchen is needed
- **Steel rack** is needed to keep the washed utensils
- Bathroom floors are not leveled properly, which is causing water logging
- Students have requested for hand spray inside the toilet (**This can be added in all the halls for the sake of hygiene**)
- The main drain outside the hall building should be covered, it is stinking badly
- **Electrical** – lights needed near the cycle stand.
- The road leading to the cycle stand is not leveled which causing water logging during monsoon
- Entrance roof joints should be permanently repaired otherwise during the monsoon it is leaking and causing the stairs very slippery.
